Ashwin Chembu

(341) 356-1722 | ashchembu@gmail.com | San Francisco, California | https://ashchembu.com

PROFILE

Frontend engineer building responsive React and TypeScript interfaces, collaborative FigJam tools, and interactive Three.js experiences. Connects reusable components with product workflows, authorization, and testing.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, HTML, CSS
Interfaces: React, Next.js, Angular, Vue, Tailwind CSS, responsive components
Interaction: Three.js, Figma API, WebSockets, Capacitor, React Router
Validation: Vitest, React Testing Library, Playwright, Firebase emulators

EXPERIENCE

Business Technology Solutions Associate | ZS Associates — South San Francisco, CA | Jun 2024-Present

- Built **React** and FastAPI RAG assistants with AWS document ingestion and Redis services to support enterprise knowledge-search workflows.
- Translated ambiguous stakeholder requirements into testable rules, API integrations, source-to-target mappings, and delivery documentation.
- Validated CRM workflows against live application behavior and metadata, documenting discrepancies in implementation-ready delivery artifacts.

Founder and Lead Developer | Tallyrus — Jun 2023-Present

- Designed **React** interfaces, rubric workflows, and iterative feedback loops that let educators review essays with consistent scoring logic.
- Built **React/TypeScript** and Express flows with Google OAuth, MongoDB persistence, secure sessions, and protected application routes.
- Led product planning, user testing, iterative development, and fundraising, raising five figures to support essay-feedback product development.

Data Analyst / Web Development Lead | Tech4Good at UCSC — Mar 2023-Present

- Contributed 158 attributed commits to a collaborator-owned FigJam repository, implementing **TypeScript** chat, polling, and export workflows.
- Built a responsive Angular career-exploration component with desktop, tablet, and mobile layouts to present top-paying industry information.
- Built anonymous responses, multi-select polls, vote changes, and admin controls with **TypeScript** and **Figma** APIs for group participation.
- Implemented 20+ attributed Node/Express REST routes with MongoDB persistence and logging for shared chat, text entry, and polling.

PROJECTS

3D Commerce Experience | Interactive Storefront — Public UI prototype

- Built reusable **React** and **TypeScript** storefront components for product discovery, search, cart, checkout, account, and content pages.
- Built a **Three.js** product builder with GLB assets and Draco decoding for independent garment colors, material controls, and placement changes.
- Implemented reusable navigation, product cards, modals, and consent flows with Vite and Tailwind, then verified a successful production build.

Sylk | Multi-Tenant Supply-Chain Platform — Private organization product | 2025-Present

- Built **React** and **TypeScript** shipment workflows with Firebase for organization onboarding, line items, fulfillment, files, and real-time chat.
- Packaged the **React** product as a Capacitor Android app with native-safe routing, Firebase Authentication, and phone-specific navigation flows.
- Validated tenant permissions and product journeys with Vitest, Testing Library, Firebase emulators, and **Playwright** across supply-chain flows.

Healthcare Dashboard | Workflow UI Prototype — Public UI prototype

- Built **React/TypeScript** and Vue dashboards translating healthcare account hierarchies and trial-management workflows into reusable interfaces.
- Built metric cards, progress steppers, follow-up queues, and barrier summaries to make account status and pending actions easier to inspect.
- Implemented task-editing and trial-detail modals alongside hierarchy views to support stakeholder demonstrations and workflow-design validation.

EDUCATION

University of California, Davis | **B.S. Computer Science** | **GPA: 3.7** — Graduated Jun 2025

CERTIFICATIONS

AWS Certified Cloud Practitioner | Google Data Analytics Certificate
