Ashwin Chembu

(341) 356-1722 | ashchembu@gmail.com | San Francisco, California | https://ashchembu.com

PROFILE

Business technology consultant turning CRM behavior, metadata, and stakeholder feedback into validated requirements, UAT evidence, and implementation-ready handoffs. Adds software and healthcare-data depth to workflow delivery.

TECHNICAL SKILLS

CRM / Delivery: Workflow validation, metadata inspection, UAT, enhancement backlogs

Analysis: Requirements, acceptance criteria, source-to-target mappings, decision logs

Engineering: SQL, Python, React, Node.js, REST APIs, Snowflake

Communication: User guides, executive presentations, stakeholder feedback, technical handoffs

EXPERIENCE

Business Technology Solutions Associate | ZS Associates **South San Francisco, CA | Jun 2024-Present**

- Validated **CRM** workflows against live behavior and metadata, documenting discrepancies for implementation handoffs.
- Turned stakeholder feedback and transcripts into prioritized **UAT** cases, enhancement backlogs, and acceptance criteria.
- Produced decision logs, executive decks, and user guides to explain MDM and **CRM** workflows to stakeholder teams.
- Translated stakeholder needs into testable rules, API integrations, source-to-target mappings, and delivery documents.

Founder and Lead Developer | Tallyrus **Jun 2023-Sep 2025**

- Designed **React** rubric interfaces and feedback loops so educators could review essays with consistent scoring logic.
- Integrated **React**/TypeScript and Express flows with Google OAuth, MongoDB, sessions, and protected product routes.
- Led product planning, educator testing, and iteration, raising five figures to fund essay-feedback product development.

Data Analyst / Web Development Lead | Tech4Good at UCSC **Mar 2023-Jun 2025**

- Built anonymous responses, multi-select polls, and admin controls with TypeScript/Figma APIs for group participation.
- Implemented 20+ attributed Node/Express routes with MongoDB persistence and logging for chat, text entry, and polls.
- Analyzed **43,340** interaction rows across **2,805** sessions with Python/Pandas and built Excel/XLSX exports for research.

PROJECTS

Healthcare Dashboard | Workflow UI Prototype **Public UI prototype**

- Built **React**/TypeScript and Vue dashboards translating healthcare account hierarchies and trial flows into reusable UI.
- Built metric cards, progress steppers, follow-up queues, and barrier summaries to clarify account status and next actions.
- Added task-editing and trial-detail modals alongside hierarchy views for stakeholder demos and workflow validation.

Private Filedrop | Secure File Exchange **Jun 2026-Aug 2026**

- Built password-protected uploads and API-key-protected Express APIs with **OpenAPI** docs for secure file exchange.
- Added local/S3-compatible storage, migration tooling, version history, and unguessable links for durable file handoffs.
- Deployed Express on Render and documented browser, REST, **OpenAPI,** and MCP workflows for cross-session handoffs.

Job Hub | Application Workflow Platform **Jul 2026-Aug 2026**

- Built Node.js/Python flows mapping role requirements to verified evidence and generating reproducible tailored resumes.
- Bound submission to validated package IDs and immutable PDF hashes, routing blockers to a human-review queue.
- Combined ATS extraction, PDF render review, duplicate prevention, and exact-file checks to validate application packages.

EDUCATION

University of California, Davis | **B.S. Computer Science** | **GPA: 3.7** Graduated Jun 2025

CERTIFICATIONS

AWS Certified Cloud Practitioner | Google Data Analytics Certificate
